

## **CODING FOR THE CLINICAL TEAM**

In our digital age the clinical team is often responsible for entering the dental work completed in the operatories. Many Assistants and Hygienist are not giving updated training in this area. This course will prepare you, your Hygienist and/or Dental Assistant proper dental coding for the work they have done. Don't let fraud happen to you.

***This seminar will teach you and your clinical team:***

- How the codes are broken down in the code book
- Where to find the correct code for the work you have done
- Nuances to the codes- it's the little things that can make a difference
- Periodontal codes and rules that need to be followed
- What documentation is necessary for insurance payment

You and your team will come away from this training with an understanding of where to find the proper code for the work that has been done. There will also be an introduction to new codes and when to use them.

**Format 1 Hour Seminar**  
**Virtual Seminar Available**
