PREVENTING REVENUE CYCLE DISASTERS:

Strategies for Effective Financial Management

Effectively Manage Your Dental Practice's revenue cycle.

Learn how to prioritize essential tasks like insurance verification, claims tracking, payment processing, and more to improve your practice's financial operations.

In this seminar you will learn:

- Discuss how to prioritize essential tasks to improve your practice's financial operations
- Highlight how making simple changes can proactively prevent problems
- Explore how establishing a steady flow of production can prevent the chaos of out-of-control collections and a backlog of insurance claims

Making simple changes like establishing a steady flow of production can prevent the chaos of out-of-control collections and a backlog of insurance claims.

Suggested Target Audience:

- Dentists
- Practice Administrators
- Insurance Coordinators
- Administrative Team Members

Format 2-3 Hours Seminar
Virtual Seminar Available
